## A UNIQUE ISLAND

## SOME PLACES IN THE WORLD ARE SPECIAL

Lanzarote has something different that goes beyond what an everyday sun and beach destination can offer. It is an island where nature and art go hand in hand, where its people live and feel the commitment of belonging, where food tastes of the sea and land, and where leisure events are as unique as the island itself. In short, it is a place whose essence leaves its mark.

**WELCOME TO LANZAROTE, A UNIQUE ISLAND.**

## WHAT TO VISIT

We invite you to make the most of your experience. Lanzarote is a volcanic island with a landscape that changes colour at every step, where nature and art are worshipped while upholding sustainable values. It's well worth exploring to be sure you don't miss a single detail. Get out there and enliven your senses.

**ENCHANTING BEACHES TO GET LOST IN**

All around the island you will find spectacular beaches with crystal clear waters and fine white, golden or black sand. In the south, Papagayo's coves stand out and, in the north, the beaches of Famara and Caletón Blanco.

And let's not forget the fantastic beaches that border the tourist areas: Costa Teguise, Playa Blanca and Puerto del Carmen, and, of course, the natural beaches of the island of La Graciosa, which are simply breathtaking.

## CACT LANZAROTE

The Art, Culture and Tourism Centres of Lanzarote, are integrated into the volcanic nature of the island and constitute its main tourist benchmark. These centres are a must-visit to get to know the true essence of Lanzarote. César Manrique, a local artist with an international reputation, made them unique by perfectly combining Art and Nature under a philosophy and a model of intervention based on sustainability.

## JAMEOS DEL AGUA

Jameos del Agua is located inside a volcanic tunnel produced by the eruptions of La Corona Volcano. Due to its proximity to the sea, it has an interior lake created by the infiltration of sea water, and is a most singular geological formation. It is also home to an impressive natural auditorium, where cultural events of special importance are held.

## MONTAÑAS DEL FUEGO

In the heart of the Timanfaya National Park, are the Montañas del Fuego, where you can enjoy the spectacular scenery, see the volcanic activity first hand and sample dishes cooked using the heat of the volcano in its El Diablo restaurant.

Mirador del Río

Cactus Garden

Cueva de Los Verdes

Casa - Museo del Campesino

MIAC - San José Castle

La Casa Amarilla

## CUEVA DE LOS VERDES

The Cueva de los Verdes is an exciting cave that starts deep in the bowels of the La Corona Volcano. It is part of a volcanic tunnel that runs until it opens deep under the ocean. It is considered one of the largest and most interesting tunnels on the planet.

## MIRADOR DEL RÍO

The Mirador del Río is a unique building whose architecture integrates perfectly with the topography of the land. It is located at the top of the Risco de Famara, 474 meters above sea level.

From there you can enjoy spectacular panoramic views of the Parque Natural del Archipiélago Chinijo Natural Park and the Risco de Famara.

## CASA - MUSEO DEL CAMPESINO

In the geographical centre of Lanzarote, at a significant crossroads from which any point on the island can be accessed, stands one of César Manrique's most symbolic works: the architectural ensemble of the Casa-Museo and Monumento del Campesino. Here you can explore the most authentic side of our agriculture and crafts.

## JARDÍN DE CACTUS

The Jardín de Cactus is home to around 4,500 cactus plants of 450 different species, grouped into 13 families of cactus from five continents. This was the artist César Manrique's final intervention and represents a magnificent example of architecture integrated into the landscape.

## MIAC - CASTILLO DE SAN JOSÉ

The International Museum of Contemporary Art (MIAC) is located in the Castillo de San José, a former military fortress. It houses an important collection of contemporary art.

## LA CASA AMARILLA

Located in the centre of Arrecife, on its ground floor this building hosts temporary exhibitions focusing on the knowledge and ethnographic memory of Lanzarote.

## LANZAROTE'S HIDDEN DELIGHTS

Let no corner lie undiscovered on your route.  
To make sure you don't miss a thing, we  
describe the essence of each municipality and its  
outstanding features below.

Puente de Las Bolas and San Gabriel Castle

## ARRECIFE

Lanzarote's capital since the second half of the nineteenth century, it has become the administrative and commercial centre of the island. Its marked seafaring character can always be felt, together with its historical function as a defensive fortress and its current role as a service city dedicated to commercial and mercantile relations.

## TEGUISE

Teguise is the largest municipality on the island, extending from the east coast to the west coast. Villa de Teguise was the former capital of Lanzarote from the first half of the 15th century until the second half of the 19th century (1852), when it lost practically all its power to the new capital, Arrecife. It was the first civil and urban settlement in the Canary Islands.

## THE EIGHTH ISLAND

To the north of Lanzarote is the Chinijo Archipelago, formed by La Graciosa, Alegranza, Montaña Clara, Los Roques del Este and Los Roques del Oeste; and which today form the largest marine reserve in Europe. La Graciosa, the most unique island of the Canary Islands, with barely 600 inhabitants and surrounded by dreamy beaches, is an idyllic place. Here everything is about calm, nature and serenity.

LA GRACIOSA

## BEACHES

## ACCOMMODATION

La Graciosa's accommodation offer is new and well maintained. It is a good idea to make a reservation before arriving on the island. It is always possible to find prior information on the internet or from travel agencies.

The accommodation is concentrated in Caleta de Sebo with guest houses, houses for longer stays, apartments, and even a camping area equipped with showers and bathrooms.

## HOW TO GET THERE

There are regular ferry lines from the port of Orzola, with departures approximately every 30 minutes.

Recommended ferry:  
Lineas Romero

## HOW TO TRAVEL ON THE ISLAND

-  Walking
-  Bike
-  Car (transfer service)

## WHAT TO DO

Lanzarote offers a wide range of possibilities for you to make the most of your visit: savour its flavours as you wander around the local markets, dance to the rhythm of its music and enjoy its endless leisure and outdoor activities, all in the midst of volcanic and oceanic nature.

## SAVOUR LANZAROTE AND SURPRISE YOUR PALATE

From traditional cuisine to the most innovative culinary creations, in Lanzarote you can enjoy top quality gastronomy. Starring roles are played by fish and seafood, legumes, goat meat and the meat of the Canary Island black pig, and a special place is filled by the excellent wines with Lanzarote's Denomination of Origin, produced in the extraordinary landscape of La Geria.

## LA GERIA, THE LANDSCAPE OF WINE

La Geria is a vineyard landscape like no other in the world. After the volcanic eruptions, the farmers of the island found it necessary to adapt their cultivation methods to the environment. This is how La Geria was created, an eerie place from which first rate volcanic Malvasía wines are obtained. During your visit to Lanzarote, be sure to join a wine tour through the wineries of the island to fully enjoy the environment.

## AN ISLAND ROOTED IN SUSTAINABILITY

The unique model of development that the island has experienced, with sustained economic growth and with clear protection and conservation of nature and the environment, has helped it to obtain several awards for sustainability. Thus, in October 1993, it was declared a Biosphere Reserve by UNESCO, while in April 2015, the same body awarded the island the title of "Lanzarote and Chinijo Archipelago Geopark", granted unanimously by the Coordinating Committee of the European Geoparks Network at the meeting held in France.

This was the definitive confirmation of the islanders' long hard work to maintain one of their most definitive and identifying features: their continued commitment to respect for and conservation of their environment.

A photograph of a winding asphalt road through a volcanic landscape. The surrounding terrain is composed of dark, layered rock formations with distinct orange and red highlights from the setting or rising sun. The road curves away from the viewer towards a distant horizon under a clear, light blue sky.
